HILL LINER MAY MAKE TRIP HERE

Giant Steamship Minnesota Wanted for Chicago Excursion Party.

Secretary H. P. Wood's report to the Promotion Committee this afternoon contains the information that the Hill liner Minnesota may be brought here on an Oriental excursion trip. Mr. Wood's report says: "The last number of the Texas and Pacific Quarterly, just to hand, which is largely taken up with illustrations pertaining to this year's meeting of the American Passenger Agents' Association, gives a full page cut of our 'Winter Sports in Hawaii' poster. The publication of this cut is timely, as it will serve to attract the attention of the members of the association to Hawaii. Early in January, each member will receive a special letter from the committee, besides copies of our folders. This campaign of education we shall keep up for the next two years or until we have landed the 1914 annual convention of the American passenger agents for Honolulu."

"Mr. Cleland, general passenger agent of the Northern Pacific Railway, sends us a copy of their News Bulletin for December, which contains an interesting write-up of the Seattle excursion, which is being extensively advertised throughout the Northwest, as is the Portland excursion."

"A special committee of the Chicago Association of Commerce is hard at work trying to get up a trade excursion to the Orient. The present plan contemplates taking the S. S. Minnesota at Seattle to Japan, returning by one of the Pacific Mail boats by the way of Honolulu, and remaining here over one boat."

"In the call issued by the American Association for the Advancement of Science for its next convocation meeting, due to convene at Minneapolis today, occurs the following statement:

"It is expected that the associ-

Whooping Cough CROUP ASTHMA CATARRH COUGHS COLDS BRONCHITIS

Vapo-Cresolene

ESTABLISHED 1879

A simple, sure and effective treatment for bronchial troubles, avoiding drugs. Vapo-Cresolene stops the paroxysms of Whooping Cough and relieves Croup at once. It is a boon to sufferers from Asthma. The air rendered strongly antiseptic inspired with every breath makes breathing easy, soothes the sore throat and stops the cough, restoring restful nights. It is invaluable to mothers with young children.

Send postal for descriptive booklet.

ALL DRUGGISTS
Try Vapo-Cresolene and send 3c for booklet for the irritated throat. They are simple, effective and antiseptic. Of your druggist or from us 10c in stamps.

Vapo-Cresolene Co., 62 Cortlandt St., N. Y.

ation will visit the Hawaiian Islands at some time in the near future."

"From which it would appear that the plan to hold their next annual meeting at Honolulu has not been entirely abandoned."

"The stumbling-block encountered hitherto has been lack of transportation, but conditions have improved so materially within the past few months that the outlook for the convention is more hopeful."

"Letters have been received from the Portland (Ore.) Chamber of Commerce, also from the Kobe (Japan) Chamber of Commerce, stating that their bodies would endeavor to have representatives at the Pan-Pacific Travel Congress."

"The publicity committee of San Francisco 1915 Exposition states in a letter just to hand that in the event of San Francisco winning out in the contest with New Orleans for the Panama Exposition, that they will gladly adopt our suggestion and give due publicity to trips to Hawaii in all the advertising matter they may send out."

"The agent for the Chicago, Burlington & Quincy Railroad at Peoria, Ill., writes for an additional supply of folders, stating that there are several people in his city who are planning to visit Hawaii at an early date."

"Mr. David R. McGinnis of Kalspell, Mont., who has had a large experience in colonization business, writes under date of December 16 as follows:

"I beg to acknowledge receipt of your favor of the 1st of September, stating that Dr. Victor S. Clark had been given charge of the colonization matters and suggesting that I would communicate with him; also suggesting that it would seem to you that it would be my interest to visit Hawaii and look over matters in person."

"What you need is a large agricultural class; people that will own their own lands, own their own homes; in fact, build up an agricultural type of citizens, such as exist in the States of the Middle West. I, therefore, am planning to make a visit to you in early part of December to confer with your body, Dr. Clark and others, in order to organize a vigorous and effective campaign to attract this class of American citizens to Hawaii."

"By the last steamer from the Orient we received a letter from Mr. A. K. Kaizer, agent for Thomas Cook & Son at Yokohama, stating that he would arrive in Honolulu the end of the month for a brief visit. Mr. Kaizer never loses an opportunity to say a good word for Hawaii, and keeps our pictures and other advertising matter prominently displayed in his office."

BANANAS AND BIRDS NEEDED

Board of Agriculture On Offer of the United Fruit Company.

A number of important problems came before the Territorial Board of Agriculture at its meeting yesterday afternoon. The discussion of an offer from the management of the United Fruit Company to send a steamer load of Bluefields banana suckers to Hawaii without cost in order to stimulate the banana growing industry here was considered favorably but the serious objection raised to the importation of Bluefields because Central American bananas are afflicted with a disease that has caused the loss or practical abandonment of large area of banana land in Central America.

In order to protect the Territory from the bringing in of the disease referred to and at the same time take advantage of the liberal offer made by the United Fruit Company it is proposed to set aside a portion of the island of Lanai as a sort of banana quarantine station. The Bluefield suckers from the United Fruit Company would be planted and observed. Those not showing any signs of the disease would be sent to other parts of the Territory for planting.

The representative of the United Fruit Company was in the Territory a short time ago looking over the possibilities of development as a banana producing country. It was then declared that as soon as the banana production in Hawaii would warrant it a regular line of fruit steamers would be placed in operation between Hawaii and the coast.

While appreciating the offer of the United Fruit Company the members of the Board of Agriculture are not disposed to let down the bars in any way that would threaten the Territory with the affliction of a banana pest. A resolution was passed at the meeting yesterday embodying a rule that will give the officials of the Board of Agriculture even more power in shutting out fruits that are suspected of being afflicted with pests, the action being taken after a statement by Territorial Entomologist Khrhorn who pointed out the necessity of arming his department with more authority in dealing with fruit inspections.

Norman Watkins, who has written to the management of the United Fruit Company at New York in connection with their offers made to stimulate a Hawaiian banana trade, has not received a reply as yet to the queries made bearing on the details of the promised steamer service and eight years old and of 529 tons.

price to be paid for bananas grown in the Territory.

Need Home Birds.
The importation of desirable birds was one of the main topics of discussion at the meeting of the Board of Agriculture yesterday. It was decided that the next session of the Legislature will be asked for an appropriation of approximately \$2000 for the purpose of meeting the expense incident to bird importation. The species to be imported, however, is to be resolved the most careful consideration. The members of the Board were a unit yesterday in believing that the danger in importing birds that were or might become fruit eaters was something that needed the most careful consideration. Commissioner Isenberg added that no chances should be taken in bringing in birds that might do large damage.

A lengthy report was presented from J. T. Rock, the Territorial botanist who has carried on a botanical survey of the Territory under the direction of Superintendent of Forestry Homer. Rock's report is interesting and tells of his labors for the past year, during which he has accomplished much good work in the interests of the Territory.

PAAUHAU HIGH UP AT 'FRISCO

Stock Nearly Two Points Above Local Market Price.

Although the stock exchange is taking a week's vacation, a good many of the brokers continue doing business right along. Their quotations, however, are a bit uncertain, as the absence of the stock exchange meetings allow some differences to creep in.

Pauha is the feature today. It is selling in Honolulu at 18, but up in San Francisco, where most of the stock is owned, it is active at 19 1/2 and probably will be up to twenty shortly. This difference between Coast and local quotation is unusual.

The market here is firm but not particularly active. Oahu is selling at 23 1/2. A dividend out is expected tomorrow, when the directors meet, but it was discounted long ago.

Advises received here state that the barkentine J. M. Griffith was towed up the Strait of Fuca on December 8 by the United States Life Saving ship Snodgrass, which picked the Griffith up off Cape Beale, B. C., waterlogged and helpless. The barkentine left Port Ludlow for San Francisco on the 4th with a cargo of lumber, and was caught by heavy winds. The J. M. Griffith is a wooden vessel twenty years old and of 529 tons.

FEW JOBS FOR THE FAITHFUL

Sheriff Jarrett Has Desire For Sweep.

Seventy-five or more men drawing down regular monthly pay as servants of the people the capacity of officers, patrol clerks and attendants connected with the police department, need have alarm over an enforced separation from their billets, if Sheriff Jarrett has his way in the morning.

"I have no intention of minding anything like a clean sweep department," stated the sheriff morning.

"There may be a few changes made in the personnel of the force, but as far as the and court officials are concerned do not see the necessity of any additions or eliminations to that now looks after that branch of the department work."

"I am in hopes that the act of Supervisors will allow my ment more money in which to carry on the work of this city. I would like to see mounted patrolmen in the service."

"But," continued Jarrett, "I had no talk with the members of the board and consequently know how they will stand the matter."

Under Sheriff Jarrett's direction are at present seventy-three men in this number but eighteen are enrolled as foot policemen in Honolulu.

The contention has been freely raised that more men are needed. However this may be, there rather slim prospect of the army of Democratic job-chasers winning under the poll unless a Republican Board of voters grant increased appropriations to assist in creating positions.

The Canadian-Australian line is due to arrive at Honolulu Saturday January 7th. This comes from Vancouver and will be given a prompt for Australian ports via Fa and.
